Profile

I am a Frontend Developer specializing in React.js and Next.js, with a strong focus on building fast, scalable, responsive, and SEO-optimized web applications. Proficient in WordPress, HTML5, CSS3, JavaScript, Tailwind CSS, and Bootstrap, I create modern, user-friendly interfaces that deliver exceptional user experiences across all devices. Experienced in API integration, performance optimization, and responsive design, I transform business requirements into high-quality digital solutions that drive engagement, enhance usability, and support organizational growth.

Professional Experience

03/2024 – present
Islamabad, Pakistan

Frontend Developer

As a **Frontend Developer**, I specialize in building **responsive, high-performance, and user-friendly web applications** using **React.js, Next.js, WordPress, HTML, CSS, JavaScript, Tailwind CSS, and Bootstrap**. I focus on transforming business requirements into **scalable, SEO-friendly, and visually engaging digital solutions**. I have successfully developed and contributed to a variety of projects across different industries:

React.js & Custom Frontend Projects

- **skynelimo.ca** ☑ – Modern static website built with React.js, optimized for performance and responsiveness.
- **gulbergoffice.com** ☑ – Corporate static website with a clean and professional user experience.
- **webenergies.com** ☑ – Business-focused static website with responsive design and optimized performance.
- **eeshaal.com** ☑ – Responsive static website with a user-centric interface.

Dynamic & E-Commerce Solutions

- **pindibrand.com** ☑ – E-commerce platform focused on seamless shopping experiences and responsive design.
- **Infusions.pk** ☑ – Dynamic e-commerce store with custom functionality, product management, and optimized user journeys.
- **Narrative.pk** ☑ – Dynamic blogging platform designed for content publishing, SEO, and audience engagement.
- **legaldiaries.pk** ☑ – Dynamic platform for legal professionals featuring content management and user-focused functionality.

WordPress Development

- **wadialghaf.com** ☑ – Custom WordPress website with responsive layouts and performance optimization.
- **siteeffects.org** ☑ – WordPress-based website developed with a focus on usability and maintainability.
- **landsexpert.com** ☑ – Real estate-focused WordPress platform optimized for lead generation and user engagement.

Across all projects, I emphasize **clean code, responsive design, SEO best practices, performance optimization, and intuitive user experiences**, ensuring that every solution aligns with business objectives while delivering measurable value to end users.
